

BIGHANNA[®] composter

REFERENCES - SCHOOLS

FORSLUNDA GYMNASIET, UMEÅ, SWEDEN

This school has been composting with Big Hanna Composter since 1995. In 2009 it was time to invest again in a compost machine, another Big Hanna Composter model T60.

LYCÉE AGRICOLE DU PAS- DE-CALAIS, TILLOY-LES- MOFFLAINES, FRANCE

This is an agricultural school that in 2011 installed a Big Hanna model T120 including an infeed hopper and shredder. They use their compost in their gardens.

NORDISKA FOLK HIGH SCHOOL, KUNGÄLV, SWEDEN

A Big Hanna Composter model T75 composts the food waste at this boarding school with 200 students. A biofilter is used to treat the air from the composter.

TRYGGHEIM VIDAREGÅANDE SKOLA, NAERBØ, NORWAY

A Big Hanna Composter model T75 installed at a school outside Stavanger on Norway's west coast.

GAMLEBY FOLK HIGH SCHOOL, SWEDEN

A Big Hanna Composter model T60, installed in 2007 with a 10-gallon inlet fed hopper and shredder.

UNIVERSITY OF IOANINNA, GREECE

Big Hanna composter model T240 is composting the food waste from the canteen. The students in the 'Department of Biological Applications and Technologies' at the University also use it as an educational tool.

STENEBSCHOOL, DALS LÅNGED, SWEDEN

A Big Hanna Composter model T120 at this school where they teach handicraft and art. The school is beautifully situated by Dalslands Kanal. This school has about 165 full board students.

OMAGH COLLEGE, CO TYRONE, IRELAND

A Big Hanna Composter model T120, installed at a technical college.

BIGHANNA[®] composter

REFERENCES - SCHOOLS

SABHAL MOR OSTAIG, ISLE OF SKYE, SCOTLAND

Big Hanna Composter model T60 has been composting food waste at Scotland's unique Gaelic college of further education since 2003.

OKEHAMPTON COLLEGE, CO DEVON, ENGLAND

Okehampton College has a volunteer scheme called 'Growing Our Futures' that provides students with practical experience of vegetable growing as well as the colleges kitchens with a ready supply of tasty and fresh produce.

The Big Hanna has added an extra dimension, allowing the food waste to be composted and the compost to provide a growing media for the vegetable garden. This machine was installed in 2009.
