

BIGHANNA[™] composter

SLIDING HATCH

The sliding hatch will be of great use when feeding food waste from an auger positioned above the infeed hopper of the Big Hanna.

The sliding hatch is available for 80 liter hoppers on Big Hanna models T240, T480 and Neter12 to Neter36.

Please note that the installation site needs to be approx. 600 mm longer than normal.
